

WHAT YOU WILL LEARN

This course will add impact and authenticity to your job interview performance by means of theatre skills.

The first step is to make every gesture, word and glance reach the people you talk to. Along with that we will look into ineffective signals you send, such as talking overexcited, not too interested and you will learn to avoid that. With personalised exercises you will achieve this in only six weeks' time.

The second step is to adjust the way you present to the things you say making you overall more convincing and able to keep the attention up.

Besides these two main steps you will learn to use many other tools to make you equipped for the interview.

All in all you will learn to:

1. discover your personal strengths and weaknesses in presenting
2. increase the strengths and avoid the weaknesses with personalised exercises
3. increase your convincingness by matching your way of presenting to your content
4. increase your ability to connect to the people interviewing you
5. present with flair and authenticity

WHAT DO YOU MISS

If you want to make even more work of the presenting part a good next step would be to do the *Excite Your Story* course. There you will learn to shape your content in an exciting way.

PRACTICALITIES

Job Interview Theatre consists of four half days with meetings every two weeks. Homework in between sessions adds up to four hours in total. You will be provided with a booklet detailing the course content. When you complete at least 80% of the course you will receive a certificate at the end.

The number of participants per trainer is ideally 4 to 6. If there are more participants, the course can be taken with two trainers and 12 participants.

You can take this course as an individual in our open course offer. If enough of your colleagues are interested, the course can also be taken together at your place of work. As set-up, we would need a venue with the tables cleared to the walls and a flipchart.
