

WHAT YOU WILL LEARN

In this workshop you will learn what theatre skills can do for your teaching. We will investigate how communication works and what you need to communicate effectively in a classroom or a lecture theatre, regardless of the size.

This exploration will provide us with one rule that will help you translate effective normal communication into effective and authentic stage acting. We will also find that you can keep attention levels up when you change the way you present when discussing different content.

The result of using these insights is that even really good teachers can double their impact.

All in all you will learn that:

1. we communicate with everything we do
2. every signal you send out needs to be adjusted to really connect with your class
3. there is one idea behind achieving this: the first law of stage acting
4. you can dramatically increase the effectiveness of your performance with theatre skills

JUST A WARNING

This workshop is a great way to inspire teachers. If your aim is to really learn to use these skills in your everyday teaching, we recommend the Theatre Skills for Teachers or The Art of Teaching courses. But if inspiration is enough, this workshop is just what you need.

PRACTICALITIES

The *Theatre Skills Workshop* ranges in length from 90 minutes to half a day. You will be provided with a booklet detailing the workshop content. The maximum number of participants per trainer is 60, although we have had groups of 150.

In the latter case a lecture theatre is the best location. A decluttered stage (no tables or equipment) is ideal. For up to 60 participants we need a large room with chairs set up in one or more concentric half circles, in front of which there should be an open space big enough for everyone to stand in a circle. We also need a flipchart.

WHO FOR?

The *Theatre Skills Workshop* is designed for every teacher who is curious to see what theatre skills can do for their teaching. The workshop is often given in the context of an away day with the team to inspire teachers. The course is open to both experienced and inexperienced teachers as the skills we teach are, in most cases, new to everybody.
